Volume 1 Issue 3

April- June 2012

Dear Visitor,

Please find attached the first edition of the RRACC Newsletter covering the period April - June 2012.

#### About RRACC

The First OECS Climate Change Project was launched on Wednesday July 13th 2011 at a formal Ceremony in Saint Lucia.

The US\$ 14.5 million regional USAID-funded project, "Reducing risk to human and natural assets resulting from climate change (RRACC)", seeks to enhance the overall, long-term capacity of the OECS region to respond to climate change, while strengthening the near-term resilience of Member States to climate change impacts through concrete, on-the-ground actions.
