Volume 1 Issue 2

Jan - March 2012

Dear Visitor,

See attached the latest issue of our newsletter. We hope you find it informative and continue to support the work of the RRACC Project.

Inside this issue:

- * The spectre of climate change is a lived reality, says OECS Director General
- * Two More Join Climate Change Team
- * Media to Assist in Climate Change Awareness
- * WASCO, Saint Lucia to receive assistance with GIS Mapping Technology

About RRACC

The First OECS Climate Change Project was launched on Wednesday July 13th 2011 at a formal Ceremony in Saint Lucia.

The US\$ 14.5 million regional USAID-funded project, "Reducing risk to human and natural assets resulting from climate change (RRACC)", seeks to enhance the overall, long-term capacity of the OECS region to respond to climate change, while strengthening the near-term resilience of Member States to climate change impacts through concrete, on-the-ground actions.
